Earphones 1 Bluetooth

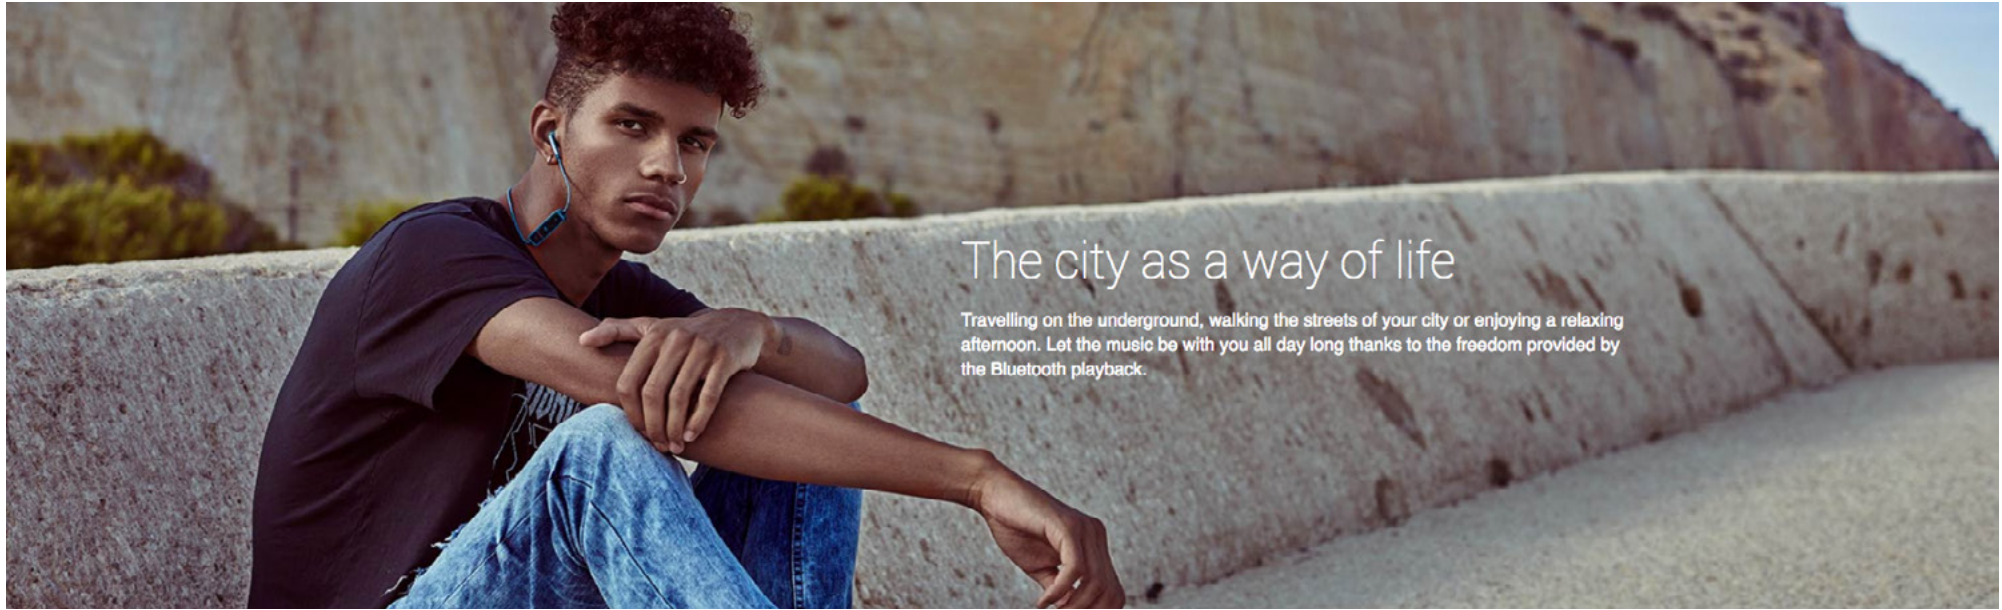

Energy Audio

Earphones 1 Bluetooth

Sound quality that fits your ears.

Bluetooth earphones with ergonomic design that adapts to the shape of your ear. With multi-function buttons, built-in microphone and up to 5 hours of battery life. The best way to combine sound, style and comfort.

The city as a way of life

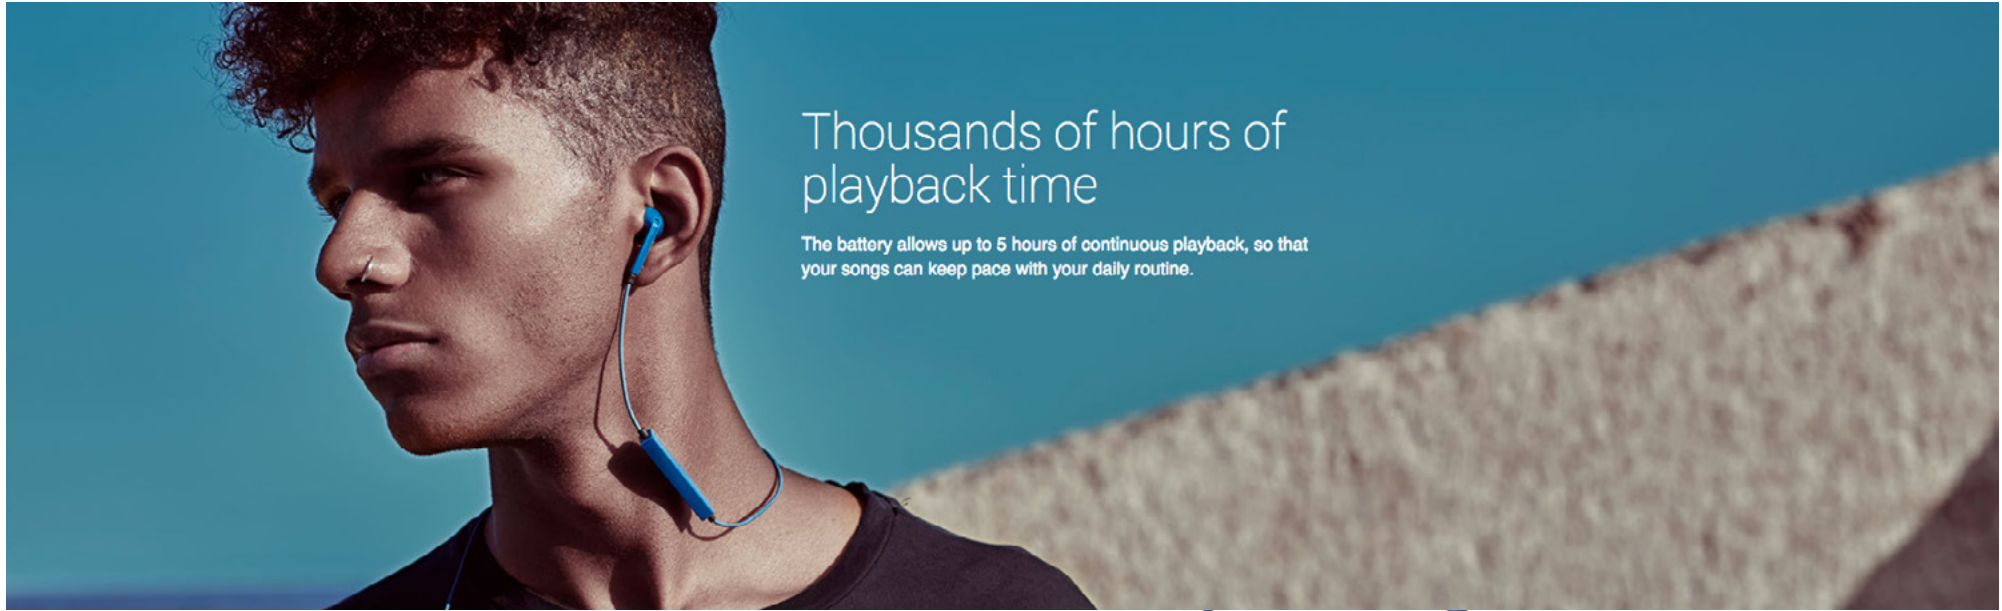

Travelling on the underground, walking the streets of your city or enjoying a relaxing afternoon. Let the music be with you all day long thanks to the freedom provided by the Bluetooth playback.

The ergonomics that only the in-ear design offers

Designed to fit the shape of your ear. Besides, they are so lightweight you barely notice you are wearing them. The shape of the earphone allows the sound to go into the ear canal directly so that you can appreciate the nuances of bass and treble.

ENERGY SISTEM

Thousands of hours of playback time

The battery allows up to 5 hours of continuous playback, so that your songs can keep pace with your daily routine.

All functions at the touch of a button

Answer your calls, rewind or fast-forward to the next song and turn the volume up or down. You only have to use the earphones buttons to do so, no need to take your smartphone out of your pocket.
